Trading update

The Company is aware of the fall in the share price this morning. As previously announced, the interim results for the six months to 30 June 2006 will be published tomorrow 28 September 2006. The Board has been conducting a review of the business in recent weeks and now expects that revenue for the full year to 31 December 2006 will be substantially lower than had originally been expected. The level of loss for the full year is also likely to be higher than originally anticipated but proportionately by a less significant amount than the reduction in turnover.

Cash resources as at the 30 June 2006 were £6.7m.
