

cloudBuy provides e-commerce solutions for buyers and sellers... and brings them together to trade via a growing number of online marketplaces and private purchasing portals around the world.

Integrated e-procurement

cloudBuy helps buying organisations automate the procure-to-pay process and turn purchasing data into strategies that improve efficiencies and deliver cost savings

Secure e-commerce

cloudBuy offers secure e-commerce websites to help sellers of all sizes increase sales and speed up payments

Drive efficiencies and reduce costs – cloudBuy helps you focus on four key areas:

1. Rationalised spend

- a. Price variance
- b. Contract compliance
- c. Price benchmarking
- d. Supplier management

2. Optimised procurement

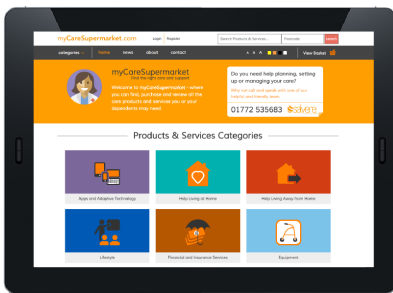

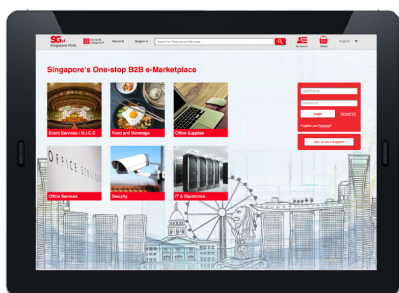

- a. Dynamic tendering
- b. Supplier selection
- c. Contract management
- d. Reporting and analytics

3. Integrated marketplaces

- a. Buy from supplier communities
- b. Consumer-style B2B user experience
- c. Supplier-managed content
- d. Secure e-commerce environment

4. Simplified payments

- a. 100% correct basket
- b. 3-way match of online documents
- c. Detailed reconciliation
- d. Speedy settlement

Solutions from cloudBuy include:

- Purchasing Portals
